

Job Title: Full-Time MERN Backend Developer

Company: Techavtar

Location: work from home or bangluru

#### About Techavtar:

Techavtar is a cutting-edge technology company dedicated to creating innovative solutions that empower businesses to thrive in the digital age. We are a team of passionate professionals who embrace challenges and drive change through technology. Join us in our mission to transform industries and shape the future of technology.

#### Position Overview:

Techavtar is seeking a talented and motivated Full-Time MERN Backend Developer to join our dynamic development team. In this role, you will play a crucial part in designing, developing, and maintaining the backend infrastructure of our web applications. If you are passionate about building robust and scalable backend systems, we want to hear from you.

#### Key Responsibilities:

- Collaborate with the front-end development team to understand project requirements and design efficient API endpoints.
- Develop and maintain the server-side logic using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Create and manage RESTful APIs and GraphQL endpoints to support the front-end functionality.
- Optimize applications for maximum performance and scalability.
- Implement security best practices to protect user data and sensitive information.
- Collaborate with DevOps and QA teams to ensure smooth deployment and testing processes.
- Debug and resolve backend issues and performance bottlenecks.
- Stay updated with the latest industry trends and best practices to continuously improve development processes.

#### Qualifications:

- Bachelor's degree in Computer Science, Software Engineering, or a related field (or equivalent experience).
- Proven experience working with the MERN stack in a professional setting.
- Proficiency in server-side JavaScript (Node.js) and associated technologies.
- Strong understanding of database management systems, particularly MongoDB.
- Experience with RESTful API design and development.
- Knowledge of GraphQL is a plus.
- Familiarity with version control systems (e.g., Git).
- Excellent problem-solving and debugging skills.
- Strong communication and teamwork abilities.
- Ability to work effectively in a fast-paced and collaborative environment.

Benefits:

- Competitive salary and performance-based bonuses.
- Opportunities for professional growth and development.
- A collaborative and innovative work environment.
- Access to cutting-edge tools and technologies.
- Flexible work arrangements (remote work options available).

How to Apply:

If you are passionate about backend development and want to be part of a dynamic team shaping the future of technology, please submit your resume, along with a cover letter detailing your relevant experience and why you're interested in joining Techavtar, to [info@techavtar.in](mailto:info@techavtar.in) and DM on WhatsApp 9234129799.

Techavtar is an equal opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.
